Date Repaid <sup>1</sup> :	N/A	State:	New York

<sup>1</sup>If repayment was incremental, please enter the most recent repayment date.

American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP) and Community Development Capital Initiative (CDCI). To answer that question, Treasury is seeking responses that describe generally how the CPP/CDCI investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP/CDCI investment was deployed or how many CPP/CDCI dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

**What specific ways did your institution utilize CPP/CDCI capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP/CDCI funds were outstanding).**

**Increase lending or reduce lending less than otherwise would have occurred.**

NAME OF INSTITUTION

(Include Holding Company Where Applicable)

Lower East Side People's Federal Credit Union

**What actions were you able to avoid because of the capital infusion of CPP/CDCI funds?**

The CDCI funds provided us with enough capital to negate the need to borrow for liquidity.

### **What actions were you able to take that you may not have taken without the capital infusion of CPP/CDCI funds?**

In the last quarter of 2011, we benefitted from the media campaigns to "Move Your Money" and Bank Transfer Day. These two campaigns drove people to transfer their accounts from large banks to small Community Development Financial Institutions like ours. As a result, our member shares increased by 1.5 million, or 7%, between the 3rd and 4th quarters. Based on the formula used by the National Credit Union Administration, this increase in deposits caused our capital ratio to decline by 1.5%. The secondary capital provided by the CDCI funds kept us within the healthy range of capital and allowed us to take full advantage of the growth this opportunity presented to us.
